3 Pole Challenge

A number of locations are selected around a field or on rough ground that will suit the following challenges. Patrols are then issued with 3 pioneering poles and a selection of rope and sisal. These items are carried to each location and used each time to complete the challenges. The time limit on each activity should be limited to 20 minutes. If your Patrols are new to this type of activity you may need to allow more time. The activity can be run as a meeting programme, a special afternoon activity or as part of your camp programme.

Cross a river or ravine using the following method

Construct the tripod as shown which has a bucket suspended from the top full to the brim with water. Transport the 'device' over the set course without spilling any water.

Make a ballista and hit the target at least 3 times

Erect a signal tripod and light a signal fire at the top
